

ROframe[®]

Lightgauge Steel Flat to Pitch Solutions

One simple section using the hand operated site cropping tool for fast, simple flat to pitch roof structures

Typical worn out flat roof

Site cropper ready for use

Base members fixed

Hip frames installed

Main frames installed

Eaves overhang

Roof ready for tiling

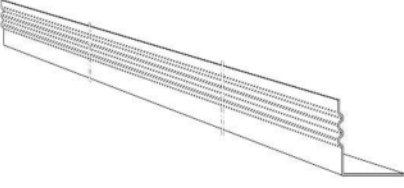

ROframe[®] is a new exciting product for the flat to pitch conversion market.

Main advantages:

- **Ease of use – one section for all elements for all the required components to construct a total roof structure, from base member to purlin.**
- **Minimal waste – all elements accurately cut on site from stock lengths**
- **The product is supplied in packs of 10 no. x 4m lengths for ease of delivery and site handling**
- **Compatible for both lightweight strip tile and sheet coverings.**

Technical Data

	<p>Size & weight</p> <p>60mm x 60mm x 3994mm swage angle</p> <p>1.5 kg per linear metre</p>
<p>Product Description</p>	<p>ROframe is a light gauge galvanised steel roof structure available in kit form for use on both refurbishment and new build roofing projects. The system comprises base members, support struts, rafter members, bracing's and where required purlins and cladding rails to suit the chosen roof coverings. All elements are formed from the same light gauge section.</p>
<p>Design Principal</p>	<p>ROframe dead load system is designed to evenly transfer all new roofloads through any existing roof decks and coverings into the existing supporting roof structures beneath. Each project is individually designed by our qualified Structural Engineers.</p>
<p>Durability</p>	<p>ROframe is manufactured from high grade Z39 lightgauge galvanised steel. The product is warranted for a minimum of the lifetime of the first roof covering installed to it.</p>
<p>Technical Support</p>	<p>ROframe offers the following:-</p> <ul style="list-style-type: none">• Desk top Survey (Free of charge).• Initial site inspection (Charges apply)• Detailed site survey with Contractor & Fixing supplier (Charges apply).• Design Drawings (Charges apply).• Calculations to prove existing Structure (Charges apply).• Calculations to prove proposed structure (Charges apply).
